COCOMAT 睡眠体验中心

Based on the unique name of "Sleep Experience Center", a "cabin" with a semi-opening form is established in this usual rectangle space, so as to create a private environment in this public place. The all furnishings are reset and the stripe solid wooden stairs and curved floor and ceiling are integrated in line with the function of bedding products. The warm feeling spreads in the whole space.

基于“睡眠体验中心”的独特命名，设计师在常态的长方形空间内部构建出一个“仓”的半开放式形态，在公共卖场建造出一个具有私密感的环境。从床等陈列的功能考究出发，归整的条形实木阶梯与弧度落地天花相糅合，整个环境弥漫着温馨的感觉。
